## Instructions

1. Paint a thick coat of acrylic paint onto your journal pages. I mixed yellow and green. Let dry or dry with a heat gun.
2. With a black Sakura Glaze Pen, draw several circles up and down your page, grouped together. Doodle inside the

circles.

3. Using a combination of Sakura Glaze Pens and Sakura Souffle Pens, color in the doodles you've created. Let dry. Do NOT dry with a heat gun as the ink will react poorly to the heat.
4. Once your doodles are dry, go back in and add details and

even more dimension with your Glaze and Souffle Pens. You can repeat this process of letting dry and adding more as often as you'd like.

5. Add a stamped sentiment.
6. Add journaling with a Sakura Microperm Pen, perfect for writing on top of slick acrylic paint.
