- Baby Wipes
- Balzer Designs/Crafter's Workshop "Tiny Circles" stencil
- Cosmetic sponge
- Archival Ink
- Text Stamp
- Small paper cup
- Brother ScanNCut
- DCWV Violet Leaf Stack
- DCWV Foiled Cardstock Stack
- 2.25x3" photograph
- Adhesive
- Typed Journaling

Instructions:

1. Choose 3-4 colors of the Koi Coloring Brush Markers that are similar. I used 2 greens and 2 blues. Randomly color with them on the watercolor paper.
2. Use a wet paintbrush to blend the colors and spread them

3. across the paper. You can tip the paper to let the color drip.
3. Add more color with the markers, as desired. It's fine to work into the wet paper.
4. Let dry or dry with a heat gun.
5. Make your own foam stamp.
 - a. Cut a 1-inch strip of thick fun foam. This will be the base of your stamp.
 - b. Cut a 1-inch strip of adhesive backed fun foam.
 - c. Cut the adhesive backed foam into small pieces.
 - d. Remove the backing on the adhesive backed foam and adhere the pieces to the thick fun foam.
 - e. Trim any excess adhesive backed foam away.
6. Brayer some acrylic paint out onto a piece of palette paper. Use it to "ink" up your foam stamp. Stamp onto the layout.
7. Use the paint to also stamp with

- a rolling dot stamp.
8. Clean both stamps and the brayer with baby wipes right away.
9. Add some circles with the Balzer Designs "Tiny Circles" stencil. Use acrylic paint and a cosmetic sponge and dab up and down through the stencil.
10. Use black Archival Ink to stamp portions of a text stamp throughout the background.
11. Use a small paper cup as a stamp to create circles on the layout's background.
12. Let dry or dry with a heat gun.
13. Arrange your title on top of the basic bracket shape (from the Brother ScanNCut built-in designs). The bracket shape should be slightly larger than your photo. Mine is just under 5" wide.
14. Cut the layered design from a piece of patterned paper from the DCWV Violet Leaf Stack.
15. Delete the title and cut just the bracket shape from a piece of paper from the DCWV Foiled Cardstock Stack.
16. Adhere the two cut pieces together.
17. Adhere the bracket shape to the layout.
18. Adhere the photograph above the title.
19. Adhere your journaling to the right corner of the photo.
