Day Planner

- Day Planner
- Note pads
- Paper clips

- Cocoa Daisy Planner pages
- Small photos
- Washi tape

- Letter/Asst. stickers
- ScanNCut
- Acrylic Stamp

Instructions

I don't think I could function without my planner! Being able to plan my day on pretty pages keeps me motivated and feeds the creative part of my brain!

1. Using a planner no longer means having to use boring, blank pages to write your daily to-do list on. Not only are there beautiful planner pages but you can also use your scrapbooking supplies to embellish them,

2. Use coordinating pieces of patterned paper to create divider pages and tabs in your planner. Cutting them out is fast and simple with the ScanNCut cutting machine.

3. Stickers, die cuts, washi tape, acrylic stamps and journaling cards are just a few of the items you can use to dress up your Cocoa Daisy Day Planner pages and divider tabs.

4. You can also use your planner as a form of memory keeping by simply jotting down a few daily thoughts and attaching a small photo. What a great way to record the everyday bits & pieces of our lives.

5. There are so many items in our scrapbooking stash that can be repurposed for use in a planner. Create fancy paper clips by adhering stitched brads, buttons, die cuts, flair buttons or resin flowers to paper clips with strong adhesive. Create bookmarks for your planner using patterned paper, die cuts, stickers or rub-ons.

6. Washi tape is great tool for use in your planner and it comes in such a wide variety of colors, patterns and widths. Use it to block off dates on your monthly calendar, or to adhere a piece of notepad paper to your daily list. You can also use it to attach a photo in your planner or decorate the edge of a page.

7. Find your place quickly by using patterned paper to create a bookmark for your planner. You can use a ScanNCut cutting machine to cut out as many as you want, then just dress them up with stickers, die cuts or stamped images.
