Living the Art Life™

Gelatin Print Stamping

By Cheryl Boglioli

Supplies:

- Gelli Arts® gel printing plate
- Acrylic stamping block
- Acrylic paints
- Brayer
- Cardstock
- Paper trimmer
- The Crafters Workshop stencils
- ➤ *Ex. Circled Face mask – TCW2065*
- ➤ **any small masks will work*

Directions:

1. Place gel plate onto acrylic stamping block with gel plate facing up.
2. Apply a small amount of 2-3 colors paint onto the gel plate and spread out the paint using a small brayer.
3. Lay small stencil/mask across painted gel plate.
4. Carefully pick up acrylic block and stamp onto cardstock. Carefully lift away.
5. Repeat this process 2-3 times until no paint remains around stencil on gel plate, moving quickly so that paint does not dry on gel plate.
6. Remove the stencil exposing paint under stencil.
7. Carefully pick up acrylic block and stamp onto cardstock.
8. The first and last prints create the most dramatic images. Use to create greeting cards or any mixed media piece.
